I am writing to express my strong interest in the Treasurer position within the Society for the Advancement of Transplant Anesthesiology (SATA). As a dedicated professional in Anesthesiology and Critical Care, I am eager to contribute my financial expertise and passion for transplant anesthesiology to SATA.

I have been an active member of SATA since 2018. I have served in various roles as a member of the bylaws, membership, website committee, and social media work group. I currently chair the finance and co-chair the abdominal transplant committee. I am also active in organizing the New England and Tristate SATA Conferences. I have witnessed first-hand the significant impact the Society has made in promoting excellence in caring for the perioperative transplant patient. I will complete my MBA from Yale School of Management in May 2024. My first year built on my knowledge of finance and exposed me to analyzing complex financial data, ensuring accuracy, and identifying discrepancies. These skills are invaluable in managing SATA's finances and ensuring transparency.

I am a firm believer in teamwork and effective communication. I have collaborated with crossfunctional teams throughout my career to achieve common goals. I am confident in working closely with the board and contributing to strategic decision-making processes. I understand

the challenges and opportunities and am committed to supporting SATA's mission to promote excellence in perioperative transplant care. My enthusiasm and dedication will positively contribute to the Society's growth.

If allowed to serve as SATA's Treasurer, I will commit myself to fulfilling the responsibilities diligently. I will maintain accurate financial records, provide timely
